COURSE BROCHURE (2026-27)

INTRODUCTION

Mangalayatan Online offers an MBA Plus (Business Analytics) program specialization map out the industry- relevant skills. The course curriculum incorporates essential business skills to excel in a competitive business landscape. The course curriculum covers the topics of data and statistical tools with effective analytical techniques for strategic planning and business growth. The specialization enables students to collect data to make an empirical analysis to define business strategies and execute data-driven business plans for enhanced results.

MISSION:

- To enhance students decision making abilities to get industry insights to analyze, interpret, and consider the application of the learned subjects.
- To encourage them to learn and practice the essential professional business intelligence concepts to take analytical job roles for career growth.

OBJECTIVES:

The key objective of the Online MBA Plus (Business Analytics) is to enhance the business acumen of students to take leadership roles. Enhancing students' in-depth knowledge of data analytics. The main concern of the programme is to educate students to understand the data patterns, trends, and anomalies, resulting in drawing conclusions based on the incorporation of programming language.

INSTRUCTIONAL DESIGN

The programme is segmented into four semesters, and the minimum credit requirement is 84 to get an MBA in Business Analytics degree from Mangalayatan Online. The minimum time period to complete the MBA in Business Analytics degree programme will be two years, and the maximum time period (extended) is three years to pursue the online MBA (Business Analytics) degree.
